this book offers an unprecedented integrative account of the shape of social order on the

microsocial level dealing with the basic dimensions of interaction the authors examine the major factors which influence structure in social interaction by applying various theoretical concepts although the concept of microsociology is usually associated with symbolic interactionism social psychology the works of george herbert mead and erving goffman and with qualitative methodologies this book reaches beyond interactionist theories claiming that no single school of thought covers the different dimensions necessary for understanding the basics of microsociology as such the book provides something of a microsociologist s tool kit analyzing an array of theoretical approaches which offer the best conceptual solutions and interpreting them in a way that is independent of their specific theoretical language such theoretical traditions include systems theory conversation analysis structuralism the theory of knowledge and the philosophy of language providing a distinct systematic and incremental approach to the subject this book fills an important gap in sociological literature written in an accessible style and offering new insights into the area of microsociology it will appeal to students and scholars of the social sciences and to those with interests in sociology microsociology interactionism and sociological theory

compilation of articles on the role concept in sociology and social theory with particular reference to the adequacy thereof in describing phenomena of social behaviour includes references

dedicated to the investigation of fortifications as important and integral elements of ancient built space the present volume results from the activity of the german based international research network fokus fortifikation ancient fortifications in the eastern mediterranean and is intended as a guide to research on ancient fortifications and a source of inspiration for new research ancient city walls and other fortification structures have long been underestimated since the early years of the 21st century research on ancient fortifications has experienced an international boom particularly amongst young researchers they approached the study of fortifications with fresh ideas and new aims and felt the need to discuss the problems and potentials of these monuments and to develop harmonized research methods and objectives the outcome is the present bilingual english and german book which offers a condensed view of the network s extended conversations the goal is not so much to offer an overview on the development of ancient fortifications but rather to present versatile and diverse approaches to their research and interpretation and to serve

as a kickoff for a new understanding of this category of ancient buildings the book is divided into two parts the first part includes 12 chapters on methods of interpretation documentation and field project organization the systematic description and presentation of fortifications the building experience masonry forms and techniques defensive symbolic and urbanistic functions and aspects on fortifications in written sources the visual arts and as a historical source and on regional and rural fortifications and regionally confined phenomena part two is a catalogue that offers exemplary presentations of fortifications studied by network members it is arranged in four sections regions sites architectural elements and architectural details the book is volume 1 in the new series fokus fortifikation studies volume 2 in the series focus on fortification new research on fortifications in the ancient mediterranean and the near east oxbow books the proceedings of an international conference held in athens in december 2012 will also appear in 2015

rising concerns among scholars about the intellectual and cultural foundations of democracy have led to a revival of interest in the american philosophical tradition of pragmatism in this book hans joas shows how pragmatism can link divergent intellectual efforts to understand the social contexts of human knowledge individual freedom and democratic culture along with pragmatism s impact on american sociology and social research from 1895 to the 1940s joas traces its reception by french and german traditions during this century he explores the influences of pragmatism often misunderstood on emile durkheim s sociology of knowledge and on german thought with particularly enlightening references to its appropriation by nazism and its rejection by neo marxism he also explores new currents of social theory in the work of habermas castoriadis giddens and alexander fashioning a bridge between continental thought american philosophy and contemporary sociology he shows how the misapprehension and neglect of pragmatism has led to systematic deficiencies in contemporary social theory from this skillful historical and theoretical analysis joas creates a powerful case for the enduring legacy of peirce james dewey and mead for social theorists today

hans kelsen and max weber are conventionally understood as the original proponents of two distinct and opposed processes of concept formation generating two separate and contrasting theoretical frameworks for the study of law the reconstruction of the juridico political affinity and divergence in hans kelsen and max weber contests the conventional understanding of the theoretical relationship between kelsen s legal positivism and weber s sociology of law utilising the conceptual frame of the juridico political the contributors to this interdisciplinary volume analyse central points of affinity and divergence in the work of these two influential figures thus the chapters collected in the reconstruction of the juridico political offer a comprehensive reconsideration of these affinities and divergences through a comparison of their respective reconstruction of the notions of democracy the state legal rights and the character of law from this reconsideration a more complex understanding of their theoretical relationship emerges combined with a renewed emphasis upon the continued contemporary relevance of the work of kelsen and weber

ernst specker has made decisive contributions towards shaping directions in topology algebra mathematical logic combinatorics and algorithmic over the last 40 years we have derived great pleasure from marking his seventieth birthday by editing the majority of his scientific publications and thus making his work available in a unified form to the mathematical community in order to convey an idea of the richness of his personality we have also included one of his sermons of course the publication of these selecta can pay tribute only to the writings of ernst specker it cannot adequately express his originality and wisdom as a person nor the fascination he exercises over his students colleagues and friends we can do no better than to quote from hao wang in the festschrift logic and algorithmic i specker was ill for an extended

period before completing his formal education he had the leisure to think over many things this experience may have helped cultivating his superiority as a person in terms of traditional chinese categories i would say there is a taoist trait in him in the sense of being more detached less competitive and more understanding i believe he has a better sense of what is important in life and arranges his life better than most logicians we are grateful to birkhauser verlag for the production of this selecta volume our special thanks go to jonas meon for sharing with us his intimate knowledge of his friend ernst specker
