from an award winning neuroscience researcher with twenty years of teaching experience multiple pathways to the student brain uses educator friendly language to explain how the brain learns steering clear of neuro myths dr janet zadina discusses multiple brain pathways for learning and provides practical advice for creating a brain compatible classroom while there are an abundance of books and workshops that aim to integrate education and brain science educators are seldom given concrete actionable advice that makes a difference in the classroom multiple pathways to the student brain bridges that divide by providing examples of strategies for day to day instruction aligned with the latest brain science the book explains not only the sensory motor pathways that are familiar to most educators visual auditory and kinesthetic it also explores the lesser known pathways reward survival language social emotional frontal lobe and memory attention and how they can be tapped to energize and enhance instruction educators are forever searching for new and improved ways to convey information and inspire curiosity and research suggests that exploiting different pathways may have a major effect on learning multiple pathways to the student brain allows readers to see brain science through the eyes of a teacher and teaching through the eyes of a brain scientist

this anger workbook is unique it is the official guide for pathways to peace a program which provides self help anger management and violence prevention instruction for individuals and communities anger is a drug which often turns into a full blown addiction this pattern of anger abuse is reinforced socially people learn to abuse anger from the examples of parents peers the media the book helps people to unlearn these destructive patterns it shows chronically angry people how to replace their anger habit with peaceful

alternatives and respond to their anger triggers in non violent ways this workbook will help the reader discover how he learned his or her anger pattern find new nonviolent ways to experience personal power learn to change abusive and violent behaviors focus on values and goals that support a nonviolent rage free lifestyle identify and change negative attitudes and beliefs that keep a person stuck avoid relapsing back into angry behavior maintain recovery from chronic anger and rage the workbook is easy to understand each of the eighteen chapters includes personal stories and questions for the reader

the purposes of this guide are to demonstrate how to apply the national science education standards to the real world of the middle school classroom and to serve as a tool for collaboration among principals state and local administrators parents and school board members different sections focus on science teaching standards professional development standards assessment standards content standards program standards and system standards the unifying concepts and processes discussed in the content standards include science as inquiry physical science life science earth and space science science and technology science in personal and social perspectives and the history and nature of science the appendices contain an account of the relevant history of the national science education standards the actual national science education standards and ideas about the design of middle school science facilities ddr

this book focuses on managing competing memories of disputed territories in eastern and central europe the caucasus and south asia through an empirical practice oriented approach it explores memory work undertaken by institutions and social actors in different cultural and national settings the book identifies examples of agonistic engagement with the memory of disputed territories that have the potential to build trust based relationships between divided communities and overcome antagonistic separation through mutually beneficial joint enterprises the volume also highlights blind spots and shortcomings of the agonistic approach by focusing on socio political conditions that might hinder or prevent the broader dissemination of this memory mode

the united states has publicly funded its human spaceflight program on a continuous basis for more than a half century through three wars and a half dozen recessions from the early mercury and gemini suborbital and earth orbital missions to the lunar landings and thence to the first reusable winged crewed spaceplane that the united states operated for three decades today the united states is the major partner in a massive orbital facility the international space station that is becoming the focal point for the first tentative steps in commercial cargo and crewed orbital space flights and yet the long term future of human spaceflight beyond this project is unclear pronouncements by multiple presidents of bold new ventures by americans to the moon to mars and to an asteroid in its native orbit have not been matched by the same commitment that accompanied president kennedy s now fabled 1961 speech namely the substantial increase in nasa funding needed to make it happen are we still committed to advancing human spaceflight what should a long term goal be and what does the united states need to do to achieve it pathways to exploration explores the case for advancing this endeavor drawing on the history of rationales for human spaceflight examining the attitudes of stakeholders and the public and carefully assessing the technical and fiscal realities this report recommends maintaining the long term focus on mars as the horizon goal for human space exploration with this goal in mind the report considers funding levels necessary to maintain a robust tempo of execution current research and exploration projects and the time resources needed to continue them and international cooperation that could contribute to the achievement of spaceflight to mars according to pathways to exploration a successful u s program would require sustained national commitment and a budget that increases by more than the rate of inflation in reviving a u s human exploration program capable of answering the enduring questions about humanity s destiny beyond our tiny blue planet the nation will need to grapple with the attitudinal and fiscal realities of the nation today while staying true to a small but crucial set of fundamental principles for the conduct of exploration of the

endless frontier the recommendations of pathways to exploration provide a clear map toward a human spaceflight program that inspires students and citizens by furthering human exploration and discovery while taking into account the long term commitment necessary to achieve this goal
